

TO WHOM IT MAY CONCERN!

I am happy to be a reference for Craig & Tomya Peters and the work they are tackling in Sydney, Australia.

I have a seven year history in Australia (1962-1970). During that time I helped establish three churches, and traveled extensively in evangelistic campaigns all over Australia. Since 1995 I have made regular, month long, trips to Australia, doing campaigns, working on unity & fellowship with the International Churches of Christ (whose attitude has been very open and receptive to us in Australia). I am in current touch with churches and personnel all over the nation of Australia.

I have known the Peters family only a short time. Their reference comes heavily from the staff of Sunset International Bible Institute in Lubbock, TX. and also from Missions Resource Network, where my son, Alan Phillips, is Associate Director. All references check out with an A+ mark.

I've recently had long talks with Craig and Tomya, and every hour with them, increases my joy at their attitude and my confidence that they are mature and well prepared for the project ahead of them.

Training "Nationals" is indeed an essential ingredient to the progress of the church in any field. Craig has been picked by SIBI (who operate satellite schools in over 40+ nations). I predict their cooperation with Macquarie School of Biblical Studies in Sydney will be a key to the establishment of new churches, growth of older ones and encouragement and evangelism all over Australia and beyond.

So let's get in this with "both feet". Let's get this family there. Let's back them to the hilt that the gospel of our Lord truly gets to every creature in Australia, and around the world.

Yours for World Evangelism,

Marvin Phillips
