Dear Brethren,

We are so excited about the opportunity to evangelize, plant congregations and train preachers in Australia! We have schools in Africa, Asia, Europe, North America, Central America, South America, and the Caribbean, but this is our first real opportunity to affect the souls of those living “down under” through a ministry training emphasis. Our partnership with the Macquarie School of Biblical Studies in Sydney will allow us the opportunity to join with those seeking to serve the Lord in Australia as we administer the work of this ministry training center.

A key element in our work in Australia is someone to train, equip and lead the students and graduates in the effort to seek and save the lost, plant healthy congregations, strengthen existing congregations and train future generations of mission workers to work in their own nation and culture. We believe that Craig Peters is the one to fill this urgent need for leadership, mentoring and training. As the Dean of Administration and an instructor at Macquarie, he will have a huge impact on the work of the Lord’s Church in Australia and Oceania. His dependence on God, willingness, giftedness and strong Christian family, made him an easy choice for those of us at Sunset.

I have no doubt that if you meet with the Peters family and see the need and opportunity at Macquarie that you will want to join them in their efforts. We wholeheartedly endorse them and pray God’s blessings on those who will agree to support them and allow the work of the Lord in Australia to move forward.

If you have specific questions about the work of the ministry training school in Australia, please feel free to contact me. We look forward to working with you in this incredible endeavor.

In Him,

A handwritten signature in blue ink that reads "Chris Swinford".
